ABOUT US!

The Kentucky Cooperative Extension Service is the most comprehensive outreach and engagement program at the University of Kentucky. Our mission, simply stated, is to make a difference in the lives of Kentucky citizens through research-based education. Jointly with our other land grant partner, Kentucky State University, we take the University to the people in their local communities, addressing issues of importance to all Kentuckians. The Extension Office strives to deliver information, education, solutions and grow ideas into better communities, stronger local economies, and healthier lives. As a part of Extension, the Marshall County office offers programs and many resources to assist you. Please feel free to contact us at anytime with questions or concerns you may have.

MARSHALL COUNTY EXTENSION AGENTS
4-H Youth Development
Lena Mallory  ●  lmallory@uky.edu
Provide you ideas on how to enrich your child’s life by developing their leadership, communication and life skills.

Family and Consumer Sciences
Vicki Wynn  ●  vicki.wynn@uky.edu
Answers your questions about nutrition, food and money management, clothing, home environment, family skills and abilities.

Agriculture and Natural Resources
“Nikki” (Rhein) Bell  ●  nicole.rhein@uky.edu
Answering your questions about crop and livestock production, farm management, marketing, and gardening.

Community & Economic Development
All agents are responsible for this programming. Education conducted in the three areas tends to have a social and/or economic impact on Marshall County. Specific Community & Economic Development programs are provided at times.

The Agriculture and Natural Resources (ANR) Program of the UK Cooperative Extension Service serves every Kentuckian by conducting agricultural research and delivering the results right to Kentucky farmers. UK Extension agents, specialists and researchers work side by side with farmers searching for solutions to new issues, boosting crop and livestock production, and much more. We also help find ways to conserve natural resources and advise landowners. From the farm to the fork, ANR offers research and outreach efforts ensuring the wholesomeness of the Kentucky food supply. We also provide residential and commercial horticulture information and resources such as soil testing, lawn care, plant diagnostics, and weed control.

**Agriculture and Natural Resource Topics**
- Vegetable Gardening
- Livestock & Forages
- Row Crops
- Lawn & Tree Care
- Timber & Wildlife
- Value Added Products
- Financial Records
- Home & Commercial Horticulture
- New Crop Opportunities

**4-H Youth Development**

The 4-H program is the largest co-ed youth organization in the world and it offers a world of possibilities to its members. Programs are provided to 4-H members, schools, and the public in a variety of areas including, SET (Science, Engineering & Technology), safety, nutrition, family consumer sciences, communication, volunteer service, and leadership.

4-H is a part of the University of Kentucky Cooperative Extension, and the Marshall County program grows each year! In 2014-15, over 2,150 Marshall County youth were exposed to some form of 4-H and Extension programming. Marshall County has 17 clubs, conducts over 100 school programs, Reality Store, 4-H Camp, and more.

**Head ● Heart ● Hands ● Health**

**4-H Youth Development Topics**
- Leadership
- Volunteerism
- Service Learning
- Career Development
- Achievement
- 4-H Camp
- After-School & Project 4-H Clubs
- School Enrichment Programs

**Family and Consumer Sciences**

Family and Consumer Sciences Extension is committed to improving the health and well-being of individuals and families in Marshall County through education, research and outreach. To help families make wise decisions, our programs focus on:
- **Making Healthy Lifestyle Choices** that influence health and well-being.
- **Nurturing Families** as they cope with fewer resources and more demands.
- **Embracing Life as We Age** to strive for independence longer.
- **Securing Financial Stability** in a turbulent economic period.
- **Promoting Healthy Homes and Communities** to recycle, reduce waste, and protect our environment.
- **Accessing Nutritious Food** that is affordable, available and safe.
- **Empowering Community Leaders** as we all work to sustain and improve our communities.

**Family and Consumer Sciences Topics**
- Health and Well-being
- Family Development
- Promoting Healthy Aging
- Financial Management
- Creating a Safe Home Environment
- Safe and Nutritious Food Preparation and Preservation
- Engaging, Educating and Empowering Volunteer Leaders
